Oak Brook, Illinois 60521

Dear Mr. Fowler:

Charles Grigalauski, a technical representative of this Agency, inspected your refuse disposal facility located south of Moen Avenue and north of the Illinois and Michigan Canal in Rockdale, Illinois on September 30, 1976.

The inspection disclosed that you have satisfactorily closed and covered this facility.

Site problems relating to leachate, surface drainage or erosion that may develop in the future should be corrected promptly. Your attention is directed to Rule 318, Chapter 7 of the Illinois Pollution Control Board Rules and Regulations on Solid Waste, which is as follows:

Rule 318: Completion of Closure Requirements

- a. The owner or operator of a sanitary landfill site shall monitor gas, water, and settling at the completed site for a period of three years after the site is completed or closed.
- b. The owner or operator shall take whatever remedial action is necessary to abate any gas, water, or settling problems which appear during the three year period.
- c. The owner or operator shall, upon completion or closure, file a detailed description of the site, including a plat, with the appropriate county land recording authority for the county in which the site is located.
